Dear Parent / Caregiver,

Reading Doctor® Online is a scientifically based teaching tool designed to improve student's reading skills. Your child will be working through the program during class time. Your school's subscription includes free home access for students and we encourage you to take advantage of that opportunity with your child.

Attached to this letter are your child's login details. To get going, use a Google Chrome browser on a PC or Mac to type in your child's *Username* and *Password* here:

https://login.readingdoctor.com

A few tips to get you started:

- Click the '**Information for Parents**' button on the login screen for more details about the program
- Please use a **Google Chrome browser on a PC or Mac**
- Please **zoom in or out** to adjust to the size of the program on the screen by using CTRL +/- on a PC or Command +/- on a Mac
- Using a PC or Mac is preferable, but should be able to log on to the software through the **Safari browser on an iPad**. Please be aware that it may run slower on an ipad than on a computer! If using an iPad, you need to use it through a browser. Please use the following instructions:
    1. On your iPad, open the Safari browser
    2. Go to login.readingdoctor.com
    3. Click the 'share' icon (the little rectangle with an arrow in it in the top right of the screen)
    4. Click 'Add'
    5. Now when you want to run the program, open it via the link you created on the homepage (it will look like an app on your iPad).
- Please note that the software may take a while to load when you first use it (it will get quicker!)

Please contact your child's teacher if you would like to find out more!

Regards,
The Team at Reading Doctor
